Sabal Trail Transmission, LLC Notes to Condensed Financial Statements (Unaudited)

1. Summary of Operations and Significant Accounting Policies

Nature of Operations. Sabal Trail Transmission, LLC (collectively, "we", "our", "us" and "the company") owns an interstate natural gas pipeline system and is owned 50% by Spectra Energy Partners, LP (SEP), 42.5% by US Southeastern Gas Infrastructure, LLC (NextEra), and 7.5% by Duke Energy Corporation (Duke). We are engaged in the interstate transmission of natural gas. Our interstate natural gas transmission operations are subject to the rules and regulations of the Federal Energy Regulatory Commission (FERC).

Basis of Presentation. The accompanying Condensed Financial Statements herein are prepared in accordance with generally accepted accounting principles in the United States of America (GAAP) and reflect the results of operations, financial position and cash flows of our company. These interim financial statements should be read in conjunction with the most recent audited financial statements and reflect all normal recurring adjustments that are, in our opinion, necessary to fairly present our results of operations and financial position. The Condensed Financial Statements do not include any of the assets, liabilities, revenues or expenses of the members.

Use of Estimates. To conform with GAAP, we make estimates and assumptions that affect the amounts reported in the Condensed Financial Statements and Notes to Condensed Financial Statements. Although these estimates are based on our best available knowledge at the time, actual results could differ.

Revenue Recognition. Revenues from the transportation of natural gas are recognized when the service is provided. Revenues related to these services provided but not yet billed are estimated each month. These estimates are generally based on contract data, regulatory information, and preliminary throughput and allocation measurements. Final bills for the current month are billed and collected in the following month. Differences between actual and estimated revenues are immaterial.

Effective January 1, 2018, we adopted ASU 2014-09 on a modified retrospective basis to contracts that were not yet completed at the date of initial application. The new standard was issued with the intent of significantly enhancing consistency and comparability of revenue recognition practices across entities and industries. The new standard establishes a single, principles-based, five-step model to be applied to all contracts with customers and introduces new and enhanced disclosure requirements. It also requires the use of more estimates and judgments than the present standards in addition to additional disclosures. The adoption of this new standard did not have a material impact on our Condensed Financial Statements.

Income Taxes. We are not subject to federal income taxes, but rather our taxable income or loss is reported on the income tax returns of our members. We are subject to cost-based regulation and consequently record a regulatory tax asset in connection with the tax gross up of AFUDC equity. The corresponding deferred tax liability is recognized as an Attributed Deferred Tax Benefit in the Condensed Statement of Members' Equity since we are a pass-through entity.

2. Commitments and Contingencies

Environmental. We are subject to various federal, state and local laws and regulations regarding air and water quality, hazardous and solid waste disposal and other environmental matters. These laws and regulations can change from time to time, imposing new obligations on us.

Litigation. We are involved in legal, tax and regulatory proceedings in various forums arising in the ordinary course of business, including matters regarding contracts and payment claims, some of which may involve substantial monetary amounts. We have insurance for certain of these losses should they be incurred. We believe that the final disposition of these proceedings will not have a material adverse effect on our results of operations, financial position or cash flows.

3. Subsequent Events

We have evaluated significant events and transactions that occurred from July 1, 2018 through August 23, 2018, the date the Condensed Financial Statements were issued.

In August 2018, we received capital contributions from members of \$2.2 million. Member distributions were declared and paid in July 2018 for \$25.4 million.
